

Australian Owned, Designed and Manufactured

Established in 1923, Stalker Pumps is an Australian owned company dedicated to delivering innovative, reliable and dependable pumping solutions to Australian and international markets. Over the past 90 years, Stalker Pumps have proven themselves across every major industry including mining, agriculture, oil & gas, civil & marine, construction and manufacturing.

Extensive Industry Experience

For over 90 years Stalker Pumps has been at the forefront of the Australian pump industry. Now a division of Malcolm Thompson Pumps, Stalker Pumps has even more credibility as a leading pump brand.

With an enviable reputation for manufacturing rugged, dependable pumping systems, Stalker Pumps continues to lead the way for quality workmanship and after-sales service. With ongoing investments in research and development, Stalker Pumps is perfectly positioned to continue being a leader within the Australian pump industry.

On-site Manufacturing

Stalker Pumps is the only pump supplier in Australia with a foundry on site, giving us complete control of the end to end manufacturing process. We manufacture both a stocked range of pumps and custom designed pumps and pumping systems. Our foundry enables us to provide complete flexibility, including manufacturing high quality castings from customer supplied patterns. We can also cast pumps in more than 19 types of ferrous and non-ferrous metals.

Machining Facilities

Stalker Pumps has a dedicated machining workshop at our Perth premise. This state of the art facility contains advanced machinery applications that are designed to maximise the life of the pump, while minimising site downtime. This includes:

- CNC machinery
- Assembly and stringent quality testing
- Service, repair and installation of pumps
- Pump and pressure testing facilities
- Spray painting

Pump Packages

Stalker Pump's team of engineers work closely with our customers to design and manufacture custom pump packages. We pride ourselves on offering a complete service, including:

- Consultation
- System design
- Fabrication
- Assembly
- Performance testing
- Full documentation
- Commissioning

With over 90 years' experience, you can trust Stalker Pumps to deliver a system perfectly matched to your requirements.
